

### **Kilmakee Mosaic Video Project:**

We have seen your rainbows, we have watched your smiles and witnessed your bike riding... it's now time for something BIGGER!!

You have probably watched a music video recently with lots and lots of faces, so we are going to do one of our own.

### **Kilmakee Sings Rend Collective's My Lighthouse!!**

Do you want in?? I think you do!!!! And you have until **June 14th** to do it!

This is what we would like you to do:

Download or listen to the backing track which AI has made for you.

Get a grown-up to hold the phone/camera for you.

Video yourselves singing one verse (and/or) chorus to the backing track.

You can use WhatsApp to send through to Jonny at 07743426658

Or use WeTransfer.com to AI using [Alastair@kilmakee.com](mailto:Alastair@kilmakee.com)

Some notes on video:

- You can video using 'portrait' that's holding your camera up and down not side to side (landscape).
- Try to stay in the middle of the picture.
- The closer you are to the picture the better the sound, so don't stand too far away.
- I know it sounds impossible, but if you are filming with your brother or sister please stand close together!
- Please don't point the camera into the window/light, it's better to have the light on the subject.
- Pause for a couple of seconds before and after you record
- Don't worry about mis-haps we can edit most problems away.
- Have fun

Any more questions please contact Graeme.
